

## **OF® AR-G1 – Arowana Carnivorous Pellet**

Premium Arowana Pellet Food.

Floating Type, Daily Feed.

OF® AR-G1 is a premium Arowana carnivorous pelleted feed that excels in all grow-out conditions and function. This revolutionary product from Qian Hu Arowana Nutrition Research is bio-formulated to boost health, growth and beauty of your Arowana. We have analysed the amino acid profile of Arowanas and blended this formulation especially for Arowanas. This feed contains purely highly digestible and absorbable aquatic animal protein that is easily metabolized by the Arowana carnivorous digestive system. Our formulation improves the palatability by 60%, you will only need very short acclimatization period. Only the finest ingredients are used to ensure that your Arowana receives nutrition of the highest quality.

OF® AR-G1 features:

- **Enriched with OF® OptiAR**  
Contains OF® OptiAR, a thoroughly tested Carnivorous Metabolic Enhancer that enhances Food Conversion Rate (FCR), increases the palatability( by 60%), boosts growth, improves health, and reduces mortality, thus giving your Arowana a true measure of extra protection against sickness and disease.
- **Fortifies immune system**  
OF® AR-G1 is bio-formulated to fortify the Arowana's immune system for better health and extra resistance against sickness and viral diseases. In addition, OF® AR-G1 increases the Arowana's resistance to parasitic infestation (Lernea, anchor worm).
- **Enhances growth through superior digestive performance**  
OF® AR-G1 helps maintain superior digestive performance during high levels of feeding. This improves the absorption of essential nutrients from the food during digestion which increases Food Conversion Rate (FCR) resulting in better growth, better health and higher metabolic output.
- **Superior colour enhancement**  
OF® AR-G1 is rich with natural ingredients that brings out and intensifies your Arowana's colour.
- **No Artificial chemical colouring/enhancer added**  
No artificial chemical colouring agent is added, the pellet encompasses only colours originating from natural organic sources.
- **Pure animal protein feed**  
No plant protein is added to beef up the protein content (except for the binder that is needed for pelletizing the feed). All proteins otherwise is pure highly digestible aquatic animal protein that can be metabolize by the Arowana carnivorous digestive system.
- **Better water quality**  
As a result of high FCR and our proprietary binder, less metabolic (fecal) waste is produced and this reduces the dissolved nutrients entering the water thus improving the water quality. This floating type pellet also does not cloud your pond/tank water.

**Feeding Instructions:**

The amount of feed that the Arowana can consume within 5 minutes is usually accepted as an accurate indicator for sufficient feeding, this feed can be fed to your Arowana up to 6 times a day with no adverse effect on the fish and the tank's water quality. Do not overfeed. Kindly adhere to the recommended feeding instructions in accordance to the seasons:

**Ingredients**

Anchovy Fish Meal, Atlantic Krill Meal, Yeast, Carbohydrate Binder, Squid Liver Meal, Natural Caroteniod, Fish Oil, Oleic Oil, DCP, Sodium Chloride, Choline Chloride, Hydrolyzed Amino Acid Attractant, Inositol, Betaine, Vitamin Premix, Mineral Premix, Stabilised Amino Acid, and OF<sup>®</sup> OptiAR

**Guaranteed Analysis**

AR-G1-1.2 (For Fry Stage to Juvenile Arowana)	AR-G1-3.7 (For Adult Arowana)
Crude Protein 55% min	Crude Protein 48% min
Crude Fat 4% min	Crude Fat 5% min
Crude Fiber 2.5% max	Crude Fiber 2.5% max
Ash 9% max	Ash 9% max
Moisture 10% max	Moisture 10% max
Phosphorous >3%	Phosphorous >2%

**Anchovy Fish:** Highly consistent in quality and better than the traditional whitefish meal, anchovy provides ALL the essential amino acids and greater digestibility for Arowana.

**Spirulina:** A high-nutrient alga, Spirulina Platensis is easily digested and absorbed by juvenile Arowanas. It also acts as a "color" food which strengthens and "fixes" the colored areas of your Arowana.

**Hydrolyzed Amino Acid Attractant:** Our proprietary attractant, this ingredient is a very digestible source of high protein and amino acids and provides an irresistible flavor to OF AR-G1 Arowana Feed.

**D3- Cal:** Di-calcium phosphate. The best source of calcium and phosphorous for your Arowana. Calcium is needed in much larger quantities than other minerals for the formation and maintenance of bone. Phosphorous is needed for the all-important task of metabolizing protein, calcium and glucose (sugar). Without it, your Arowana would exhibit weight loss, abnormal growth and anemia.

**Vitamin Absolute:** Complete source of vitamins for fish health, vitality, energy and resistance to disease. Vitamins facilitate the chemical processes that take place within the tissue cells of fish, and a lack of them results in a large number of ailments and general lack of health. Included are vitamins: A, C, D, E, K, B1, B2, B6, B12, Choline, Niacin, Biotin and Folic Acid.

**Mineral Blend** All the trace minerals that your Arowana needs. Minerals are essential for metabolic activities in your Arowana and also rigidity in muscle and sound bone structure.

**Deep sea Fish Oil:** The primary source of fat and essential fatty acids needed for vitality in cell membrane structure and the formation of the insulating layer of fat between the muscle and skin of Arowana. Fat serves your Arowana well as it retains body heat, serves as a shock absorber and is the source of nutrient reserves which tide them over the cold seasons. OF AR-G1 Arowana Feed contain marine fish oil to provide Omega 3 & 6 fatty acids.

**Stabilized Vitamin C :** One of the most important vitamins for Arowana and pond fish health, its functions as an Immunity booster, resistance to disease, formation of bone, skin and other connective tissue, wound healing, fights bacterial infection, strengthens walls of capillaries (tiny blood vessels).

**Choline:** Essential Vitamin B-Complex found in lecithin. Choline is essential in the metabolism of fat and in Arowana serves additionally to create rich and vibrant colors.

**OF OptiAR:** Added Only to our OF AR-G1 Arowana Feed. The thoroughly tested, high efficacy Biogenic Performance Enhancer that will result in better food conversion, better growth, improved health, reduced mortality and an improved immune system in your Arowana, giving them a TRUE measure of extra protection against sickness and disease.
